

The Extraordinary Leadership Journey

The Extraordinary Leadership Journey provides the leadership experience of a lifetime. You will spend a week in a rural Kenyan school with a small group of fellow leaders.

Stripped of your status, your power, the hierarchical deference of those in your organisation, your cultural reference points, your emotional shields and physical home comforts, what kind of a leader will you be then?

How will you lead when you teach teenage Kenyan orphans? How will you work with the teachers? What difference can you make to the school community?

For us, leadership is not technique. You can learn leadership skills, but that doesn't make you a leader. Leadership development must develop new attitudes and instill new leadership behaviours at the group and individual levels.

This is why our Extraordinary Leadership Journey takes place in African schools and orphanages led by amazing people. Learn how the highest levels of leadership are able to transform the lowest resource environment into a truly high performing environment. Here, leaders encounter themselves anew and explore new dimensions of their unique leadership abilities.

Every day you will be coached to enable you to integrate the impacts and learnings so powerfully amplified buy the surroundings. You will be fully briefed and coached before and after to enable you to bring your new leadership capabilities home for maximum benefit. Here you will discover the leader you can be.

Scheduled 2012: February 25th- 1st March; 23rd-28th June; 20th-25th October; all dates subject to availability. All departure dates are Saturdays. Mail info@xleadership.com for latest status.
